Dale's Details by NØPEY

It has been a hectic month and another one is rolling in. Six feet of snow and more snow coming, melt the snow and prepare for the floods. There might be some radio activities to deal with as things develop.

As you can see from the program announcement, we needed to make some changes for the March meeting. UST will be just too busy that weekend for SPRC to fit in comfortably. So to avoid overcrowding and parking problems, we found an alternative treat that should be fun and educational. Think of this as a makeup treat for not having a Holiday Party, and a contribution to preserving Radio History which is fleeing away faster than you think.

The Pavek Museum of Broadcasting should hold your interest for a couple three hours, and we will have a short meeting and provide refreshments as usual. Yes, I understand it is not on Friday night, it's over the river in St. Louis Park, tricky to get to and conflicts with other events. So think of it as an Emergency Response Practice to a disaster, and come see how many of the members respond.

During the meeting, we will be looking for table sitters at Midwinter Madness, we have three onboard, a few more will make it better. Our Club table is also a great place to stash your purchases while you continue to shop, so help pay the rent by volunteering for an hour as a SPRC representative.

Coming up is the Banquet, in April or May. Problem here is we can't have it at UST Room 304 as before, it's booked up or no service available. If you can help us out with information on an inexpensive venue/restaurant with some audio video capable side room and descent service, Jay Maher is the man to inform.

Then comes June with Tailgate Swapfest and Mining's Everything under the Sun Garage Sale on Saturday the 4th, both on the Maplewood 3M Campus. I'll have more on these opportunities next month.

Close out the month with ARRL Field Day and the SPRC Picnic on the 25th. What we know at this time is: we need to confirm a Chair person(s), before I start overstepping my role a Chief Cook and Bottle Washer (Food Chair). A phone station chair, whole new digital operation chair, publicity and invited guests handler, QRP/solar operator, setup and take down teams...the list goes on. Please jump in on the ground floor and make this year a great one.

I hope this helps, as your President, I have been approached by numerous members both old and new over the years, and they have proposals and ideas that would help the Club. Some are complex and require more assets than we have, others are simple and just need to be developed further by the originator. We are a volunteer organization; we can't direct anyone to do anything they don't want to do, or assign a job to someone that is not interested. The best advice I can offer is: Just DO it! Don't worry about what others will think about it. We will all learn something from the experience whether it is a success or not.

Think Spring, Dale, NØPEY, President
